Is it just a Great Concept, Or.....

What is SLAM?

SLAM is based on a methodology that is proven by organisation wide implementation in a Billion Dollar Global Corporate (22000 employees, 25 countries), a large Deemed University (18000 students and 800 faculty members) and a National NGO with more than 2300 branches and a reach of over 125000 people. It is a two day intensive, interactive, action oriented workshop based on a 360 degree assessment.

Why is SLAM unique?

- It breaks all the myths about Servant Leadership and elevates it to completely practical and pragmatic levels.
- It is personal, because it is based on your personal 360 degree assessment report on 7 DEEP BHC behaviours
- It addresses the whole person, as it prepares you for transformation at the four domains of Heart, Head, Hands and Habits
- It is practical , as it ends with a personal practice guide that guides your actions after the workshop
- It is enduring as it offers an optional coaching engagement to implement the action plans.

What are others saying about SLAM?

- **Phinu Joseph:** Facilitator who is Sooper Lively Amazing and Magnanimous-SLAM with his job! Team Camaraderie, Frequent Wake-Up Calls, Unhurried Pace, Non-Judgemental Discussions. Thoroughly enjoyed every minute
- **Arun C. Antony Fr.:** The (SLAM) workshop was so unique in the sense you were continuously reflecting and introspecting about the philosophy of Servant Leadership. Hence believe this has been a true life changing experience. I really hope to modify, adopt this style.

SLAM structure
